MARKET ADMINISTRATOR
New York-New Jersey Milk Marketing Area
205 East 42nd Street, New York, NY 10017
212 557-0330

FOR IMMEDIATE RELEASE:
FRIDAY, AUGUST 13, 1982

DAIRY FARMERS WILL RECEIVE \$13.16
FOR JULY MILK

New York, August 13--Dairy farmers who supplied milk plants regulated under the New York-New Jersey marketing orders during July will be paid on the basis of a uniform price of \$13.16 per hundredweight (28.3 cents per quart). Market Administrator Thomas A. Wilson also stated that the uniform farm price per hundredweight was \$12.63 in June 1982 and \$13.33 in July 1981. The uniform price is a marketwide weighted average of the value of farm milk used for fluid and manufactured dairy products.

The butterfat test for July 1982 was less than 3.5 percent. In the past five years, the July test has been above that mark only once, in 1980.

A total of 17,382 dairy farmers supplied the New York-New Jersey Milk Marketing Area with 923,177,789 pounds of milk during July 1982. This was an increase of 0.6 percent (about 6 million pounds) from last year. The gross value to dairy farmers for milk deliveries was \$121,663,425.33. This included differentials required to be paid to dairy farmers but not voluntary premiums or deductions authorized by the farmer.

Regulated milk dealers (handlers) utilized 355,387,092 pounds of milk for Class I, 38.5 percent of the total. This milk is used for fluid milk products such as homogenized, flavored, low test and skim milks. For July 1982, handlers paid \$14.68 per hundredweight (31.6 cents per quart) for Class I milk compared with \$14.86 a year ago.

The balance, 61.5 percent, was used to manufacture Class II products including butter, cheese, ice cream and yogurt. For this milk, handlers paid \$12.45 per hundredweight.

The uniform price is based on milk containing 3.5 percent butterfat. For July 1982, a differential of 17.0 cents was applied to the price for each one-tenth of one percent that the milk tested above or below the 3.5 percent standard.

All prices quoted are for bulk tank milk received within the 201-210 mile zone from New York City.

FOR IMMEDIATE RELEASE:
THURSDAY, OCTOBER 14, 1982

DAIRY FARMERS WILL RECEIVE \$13.74
FOR SEPTEMBER MILK

New York, October 14---Dairy farmers who supplied milk plants regulated under the New York-New Jersey marketing orders during September will be paid on the basis of a uniform price of \$13.74 per hundredweight (29.5 cents per quart). Market Administrator Thomas A. Wilson also stated that the price was \$13.59 in August 1982 and \$13.83 in September 1981. The uniform price is a marketwide weighted average of the value of farm milk used for fluid and manufactured dairy products.

The seasonal incentive fund returned a total of \$3,879,204.16, or \$.447 per hundredweight, to the dairy farmers' uniform price for September. This fund was generated by reducing the uniform price during the high-production spring months.

A total of 17,479 dairy farmers supplied the New York-New Jersey Milk Marketing Area with 867,061,065 pounds of milk during September 1982. This was an increase of 1.3 percent (about 11 million pounds) from last year. The gross value to dairy farmers for milk deliveries was \$120,352,631.83. This included differentials required to be paid to dairy farmers but not voluntary premiums or deductions authorized by the farmer.

Regulated milk dealers (handlers) used 376,232,154 pounds of milk for Class I, 43.4 percent of the total. This milk is used for fluid milk products such as homogenized, flavored, low test and skim milks. For September 1982, handlers paid \$14.67 per hundredweight (31.5 cents per quart) for Class I milk compared with \$14.78 a year ago.

The balance, 56.6 percent, was used to manufacture Class II products including butter, cheese, ice cream and yogurt. Handlers paid \$12.52 for this milk.

The uniform price is based on milk containing 3.5 percent butterfat. For September 1982, a differential of 17.1 cents was applied to the price for each one-tenth of one percent that the milk tested above or below the 3.5 percent standard.

All prices quoted are for bulk tank milk received within the 201-210 mile zone from New York City.
